LIVING WATER

OASE — PASSIONATE ABOUT WATER.

## NOT ALL AQUARIUMS ARE THE SAME. biOrb DEFINITELY ISN'T.

PERHAPS YOU'VE THOUGHT YOU'D LOVE AN AQUARIUM, BUT ARE TOO BUSY TO KEEP A HIGH MAINTENANCE TANK? A biOrb IS DESIGNED FOR YOU.

### You don't need to be an aquatics expert to enjoy keeping fish in a biOrb

Everything you need to start your new hobby is included. Lighting, pump, filtration and instructions. You'll soon be decorating your tank and enjoying the magic of keeping fish. Above all, biOrbs are simple to set up and easy to look after.

### Also, you may be interested to know this about us

In 1999, frustrated with what was available to use as enthusiasts we designed a performance aquarium we wanted to own. We believed in a thing called quality and we believed (and we still do) that "simplicity of design" is worth the effort.

Tearing up the "rule book" we thought about aquarium design in new ways. We thought about the needs of the fish and also the home aquarist. We really wanted to get the fundamentals right. Next, we set out to make the best quality products we know how, so we made a rule for ourselves. The products must be so wonderful that "our customers would want to tell their friends about them".

### Introducing biOrb

In those early days we had a prototype and a phone but no orders. On a chilly day in October 2000, this changed. We got our first order. Today, over a million people enjoy keeping fish in a biOrb.

## WORTH KNOWING

---

84 Product Overview

87 Guarantee

“I’D THOROUGHLY RECOMMEND IT.  
I LOVE MINE”

# biOrb CUBE

A new approach to a traditional shape. The biOrb CUBE has clean lines and provides you with an open space for aquascaping. Set your creativity free inside this well-proportioned aquarium. It will frame your underwater creation perfectly.

“SIMPLE TANKS TO KEEP”

## biOrb TUBE

So minimal it hardly appears to be there. The biOrb TUBE gives you a great space to aquascape without the visual interference of joins or corners found in traditional aquariums. If you like a true 360° viewing experience then choose the biOrb TUBE.

“biOrbs. LOVE THEM.  
YOU MIGHT SAY I GOT A LITTLE HOOKED”

## biOrb LIFE

If you're looking for a unique design statement, then biOrb LIFE is for you. Simply put, it looks like nothing else in aquatics. Seamless and elegant it creates a spectacular display in a shape that is timeless.

“I THINK I’VE CONVINCED  
MYSELF THAT I NEED ONE”

## biOrb FLOW

With its three quarter form, the biOrb FLOW gives you an uninterrupted view in a compact tank. The biOrb FLOW is ideal for your desk and other small spaces where you wouldn't normally be able to enjoy an aquarium.

“THE biOrb HAS GOT ME IN  
TO HAVING FISH AGAIN”

## biOrb CLASSIC

The original design for a biOrb. Still as popular now as it was when it was first launched. Now available in a range of sizes and options to suit everyone. From the charmingly cute 15 litre up to the spectacular 105 litre model.

“IT’S LIKE WATCHING MY FISH  
IN HIGH DEFINITION”

## biOrb HALO

A modern take on the original CLASSIC. The biOrb HALO has a hidden water line that makes your underwater view appear suspended in space. The simplicity of the curved design creates an appearance of lightness and neatly houses the lights, filter and airline.

Inside your biOrb

## The component parts

## HERE'S HOW A biOrb AQUARIUM WORKS: THE biOrb FILTRATION CYCLE

All biOrbs have a filter at the bottom of the aquarium. It's where solid waste naturally settles. Put simply, the filter works where there is most to filter.

1. Air driven filtration system creates vigorous water flow and a constantly changing water surface. This maintains oxygen saturation.
2. The circular flow of water then collects any fish waste on its way down.
3. It draws the waste through the ceramic media where the natural biological filtration absorbs some toxins. The freshly oxygenated water also feeds the bacteria.
4. Any remaining waste is trapped in the sponge cartridge. The water then passes through resin particles and natural stabilisers to remove toxic substances and keep the pH levels constant.
5. The clean water is then oxygenated as it flows back up the bubble tube to repeat the cycle.

## MADE FROM ACRYLIC. HERE'S WHY:

Acrylic is incredibly strong. In fact, it's used in aeroplane windscreens. It's also very clear. Acrylic has a transparency rate of 93 % making it the clearest material known.

Because of this customers have told us...  
"it's like watching my fish in high definition"

Another benefit of acrylic is insulation. It has very little heat loss and so minimal energy is needed for heating your aquarium.

# ENJOY THE MAGIC OF MULTI-COLOURLED LIGHTING.

CHOOSE FROM 16 PRE-SET COLOURS, CONTROL THE BRIGHTNESS OR  
REPLICATE NATURE'S SUNRISE, DAYLIGHT, SUNSET AND MOONLIGHT.

## Colour at the touch of a button

Using your remote control couldn't be easier. Simply choose your colour and use the grey bar on the right control the brightness.

Or push the wave button and enjoy as your biOrb cycles through all the colours.

Press the cog button while your biOrb is cycling through the colours to stop on your favourite.

- High quality LEDs, typically last 50,000 hours.
- On/Off by remote control.
- Auto sunrise, daylight, sunset and moonlight.

“IT’S LIKE A RAINFOREST  
FOR YOUR DESK”

## biOrb AIR 60

**IMAGINE BEING ABLE TO GROW SMALL TROPICAL PLANTS WITHOUT DAYLIGHT.**

**Introducing the biOrb AIR terrarium. Your own micro-climate.**

Research shows that visual exposure to plants helps to reduce blood pressure and to lessen stress. The biOrb AIR 60 is an automatic environment that controls humidity, lighting and air flow. It allows you to grow small tropical plants where they couldn't naturally exist. Perhaps inside an office, a dimly lit room or a corridor.

### **The Need for Nature**

In his book *Biophilia*, Harvard biologist E.O. Wilson proposed that humans have a natural tendency to affiliate with nature. The term, *Biophilia*, has since been used to describe humanity's need for nature. The need to return to nature is the very ethos of the biOrb AIR 60.

Recipe for this terrarium

# biOrb AIR 60

Features

- An automated terrarium that offers hassle-free plant care.
- Can be filled with hard-to-maintain exotic plants.
- Now you can feel the benefit of seeing the natural world, indoors.

PRODUCT DETAILS

**Automatic misting**  
Triggered automatically when the humidity drops below a set level. A gentle mist hydrates the plants right down to the roots.

**LED lighting**  
With automatic day and night cycle providing all the light your plants need to thrive.

# ORNAMENTS & PLANTS

## SAMUEL BAKER'S ADVICE ON AQUASCAPING

*Samuel Baker has been creating biOrb aquatic sculptures for over ten years. Here he explains how to create a display which both suits the aquarium environment and is pleasing to the eye. "For me, the aquascaping is the most important part of setting up an aquarium". Samuel explains that "Without it, an aquarium is just a vessel for holding water and as interesting as fish are, when you put an aquarium in your home it is the overall effect which is key".*

## SAMUEL BAKER'S

### TOP 5 TIPS FOR AQUASCAPING WITH DECORATION.

1. *Decide on your central theme and stick to it. This could be a scenic design or colour theme, but make sure you consider every item you add and ensure it works with your design.*
2. *'Soften' feature items with complimentary decor such as pebbles, starfish and shells to build up the composition and theme.*
3. *Use synthetic plants to add height and build up levels. Use a variety of textures to add interest, but maintain a colour theme so that it all works together.*
4. *Spend a little time keeping it clean. No one likes algae and waste in the aquarium. Keeping your decor well maintained makes the whole aquarium look healthy and clean.*
5. *Change it up. As you would with your home, change and element of the design to create a new look every so often. Keeping it fresh means you'll continue to enjoy your aquascaping.*

GUARANTEE

OASE GmbH offers a manufacturer’s guarantee under the conditions specified below; the respective duration of the manufacturer’s guarantee is marked based on the product. The guarantee period is also provided in text form with the product. The term of the respective guarantee period starts with the first-time purchase of the new product from the authorised OASE dealer. If the product is resold, the guarantee period does not start over again. The guarantee period is neither extended nor restarted through guarantee performances, nor do legal warranty claims arise on guarantee performances. If the guarantee is not expressly specified, then OASE provides a guarantee in the scope cited below: The prerequisite for claiming any guarantee from OASE, including the extension guarantee, is that the customer must have properly and exclusively installed original OASE spare parts when replacing parts, or for a repair or for any kind of improvement. If products from third-party manufacturers are installed, any OASE guarantee is rendered null and void.

At our discretion we provide a guarantee through free-of-charge repair or free-of-charge delivery of original spare parts, or of an equivalent replacement device. If the type in question should no longer be manufactured, we reserve the right, at our discretion, to deliver a replacement device from our product range that most nearly approaches the type that was the object of the complaint. Reimbursement of expenses for removal and installation, checking, claims for lost profit and compensation for damage, as well as reverse transaction claims are not included in the guarantee, likewise more extensive claims for compensation of losses, regardless of the type, that have been caused by the device and its use, are not

included in the guarantee. The guarantee only applies for the country in which the devices were purchased from an authorised OASE dealer.

According to these conditions German law with exclusion of the United Nations Convention on Contracts for the International Sale of Goods (CISG), applies for this guarantee. The legal rights of the purchaser, in particular arising from the warranty are not affected by this guarantee. Defects or damage due to faulty installation or operating error, as well as insufficient care or the use of unsuitable cleaning agents or neglected maintenance, non-intended use, damage, impact, the effects of freezing temperatures, etc., cutting of the plug, shortening the cable, limescale deposits or improper repair attempts, are not covered by the guarantee. In this respect, relative to the intended use, we refer to the operating instructions; compliance with the operating instructions is the basic prerequisite for any claim arising from the guarantee. Wear parts, e.g. bulbs, etc. are expressly not a component of the guarantee; wear parts are specified in the operating instructions of the products. If there is a guarantee claim, please contact the OASE dealer, who sold the product to you. If this possibility does not exist, you can assert claims arising from the guarantee relative to OASE GmbH, Tecklenburger Str. 161, 48477 Hörstel, Germany, by sending to us the product that is the object of the complaint, carriage paid, and at your transport risk, with a copy of the original purchase receipt of the authorised OASE dealer, the original guarantee certificate, as well as written specification of the fault that is the object of the complaint.

A directory of authorised OASE dealers is provided at: [www.oase-livingwater.com](http://www.oase-livingwater.com)
