

Using the Pond Zinger™

IMPORTANT: The Pond Zinger™ must be suspended in running water in order to get results

1. Remove the Pond Zinger™ from the pouch and pull the cord straight.
 2. Roll up a piece of the net/mesh over itself (like a sock)
 3. Insert the Pond Zinger™ and one end of the cord into the rolled up net/mesh
 4. Unroll the end of the net/mesh again
 5. Center the Pond Zinger™ and pull the cord to the center as well
 6. Use the pull straps on both ends of the net/mesh and cut off the remaining pieces if necessary
 7. Place the Pond Zinger™ in the stream of water.
- The Pond Zinger™ must be dry before storing in a plastic bag.
 - Store the Pond Zinger™ in a cool dark place
 - The color of the Pond Zinger™ may vary; this is normal.
 - Wash your hands with soap and water after using the Pond Zinger™.

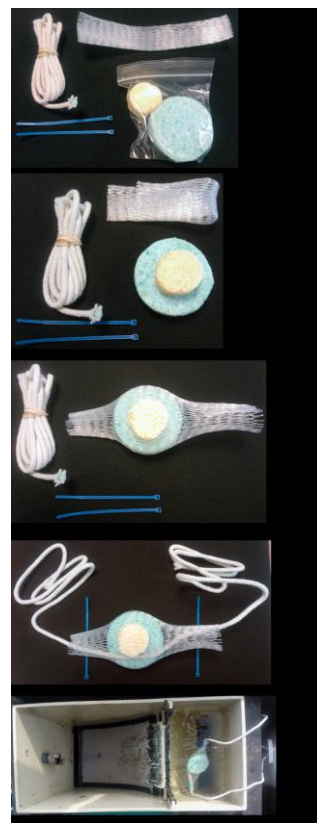

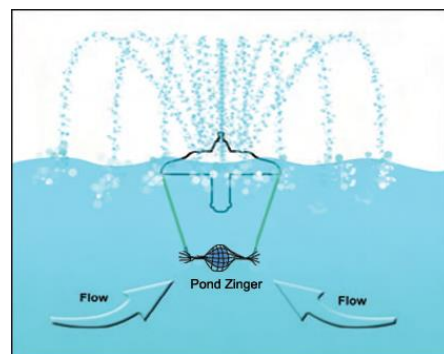

Attach the Pond Zinger™ to the aerator
Attach a float to place the Pond Zinger™
in the flow of the bubbles.

Attach the Pond Zinger™ underneath
a (floating) fountain

Place the Pond Zinger™ in the steps of a waterfall

Attach the string of the Pond Zinger™ in such a way that hangs in the flow of the water

- The Pond Zinger™ is designed for ponds from 2,000 to 40,000 liter.
- **Do NOT use the Pond Zinger™ in ponds smaller than 2,000 liters!**
- For questions regarding the Pond Zinger™, please contact your Pond Zinger™ dealer.

The Pond Zinger™ is safe for fish

Clears your green pond

- An environmentally friendly way to clear green ponds
- Easy to install
- For ponds from 2,000 to 40,000 liters
- Undissolved portions can be stored for later use
- Reduces between 75 to 85% phosphorus (phosphate) and nutrients
- Safe for all aquatic life

Not suitable for human consumption. Wash with soap and water after use. Keep out of reach of children. Consult your doctor in case of ingestion. CAUTION: becomes very slippery in water

Dosage Information

1 Pond Zinger™ treats 2,000 to 40,000 liters of pond water.

Once your pond is clear you can remove the Pond Zinger™. Let it dry completely and store in a plastic bag in a dark place until needed again. The Pond Zinger™ is intended for normal phosphorus applications. When excessive fertilizer or phosphorus enters the pond water an additional dose may be required.
